Adding Traffic Counts to RAMM

23/08/2023 10:05 pm +10

RAMM Notes and Assumptions	Indicative (draft) Data Dictionary	Other Supporting Links
RAMM has a MetroCount import tool. There are supporting configuration files available to help export data from the MetroCount application in a RAMM compatible format. The second link included on the right is a MetroCount support page discussing the process from a MetroCount perspective.	*(RAMM compatible import file to be generated from MetroCount software)*	Help page in RAMM with additional file downloads **MetroCount support page for RAMM** RAMM NZ Vehicle Classification Document RIMS Traffic Counting Guide Supplement
