

Background to Development of the Standard

18/03/2026 8:14 am +10

- This data standard has been created by Simon Gough (GHD), Scott McIntyre (Datastack - supporting GHD), Stuart Trounson (GHD) and Elliot McBride (GHD) as part of the PNG Transport Sector Support Programme.
 - The following standards have been used as source information to provide some of the inputs for the creation of the PNG RMS data standard:
 - The NZ Asset Management Data Standard (AMDS)
 - Auckland Transport Database Operations Manual (ATDOM) - partly written by Simon Gough and Scott McIntyre
 - Austroads Asset Data Standard
-
