# Background to Development of the Standard

11/08/2024 11:30 pm +10

- This data standard has been created by Simon Gough (GHD), Scott McIntyre (Datastack - supporting GHD), Stuart Trounson (GHD) and Elliot McBride (GHD) as part of the PNG Transport Sector Support Programme.
- The following standards have been used as source information to provide some of the inputs for the creaton of the PNG RMS data standard:
    - The NZ Asset Management Data Standard (AMDS)
    - Auckland Transport Database Operations Manual (ATDOM) - partly written by Simon Gough and Scott McIntyre
    - Austroads Asset Data Standard
